Dear Parent/Guardian,

Many thanks to those of you who have already completed the recently sent funding survey which will help to shape the future of our school.

To date the strongest survey response rate has been from 1st year parents. However as these developments will benefit the whole school, we would value the views of **all** parents. As this survey closes shortly – if you have not yet done so – I would be most grateful if you would take 10 minutes to share your thoughts.

- First, take a moment to read this short [Discussion Document](#)
- Then provide your feedback by replying to this [Survey](#) by **Tuesday, Dec 10th**

Yours sincerely,
